WILEY

Charge Form

Ecological Applications (EAP)

Return this form to:

Richard Nagurka

Email: eap@wiley.com

Dear Author:

Charges of \$75.00 per page are applied to all articles in *Ecological Applications*, except for articles for which authors have purchased OnlineOpen or have received an ESA page charge grant (see next page).

Please review the calculated page charges below, complete the remaining fields necessary to process your final invoice, and return a signed copy of this form to Richard Nagurka within 48 hours with your proof corrections. **Please note that publication of your article cannot proceed without this signed form.** If charges are due, a final invoice will be emailed to the named billing contact within a few weeks of your article's publication.

Article Details

Title: Carryover effects of temperature and pCO₂ across multiple Olympia oyster populations

Authors: Laura H. Spencer, Yaamini R. Venkataraman, Ryan Crim, Stuart Ryan, Micah J. Horwith, Steven B. Roberts

Article no.: 2060

Pages: ~~16~~ Total # pages is now 15

Page charge: ~~\$1200~~ \$1,125

ESA Page Charge Grant Request

(Please complete this section only if requesting a page charge grant.)

In order to qualify for a page charge grant, the corresponding author of the article must be an ESA member and provide a valid member number. Other authors in the byline who are ESA members are not eligible to receive the grant for this paper. In addition, the member must certify that there are no other funds available to pay the page charge.

ESA members who meet the above criteria are eligible for a yearly grant to cover page charges. ESA grants are available only to current ESA members in the role of Corresponding Author for a maximum of 21 pages per calendar year under the following terms. ESA grants may cover the charges of no more than 15 pages per author per year published in *Ecology* and *Ecological Applications*, or 21 pages per author per year in *Ecological Monographs*. (Example: an author could use 6 grant pages for *Ecology*, 9 grant pages in *Ecological Applications*, and 6 grant pages in *Ecological Monographs*, resulting in 15 grant pages in *Ecology* and *Ecological Applications* plus 6 grant pages in *Ecological Monographs* for a total of 21 grant pages in the calendar year.) If an article exceeds the number of grant pages available, the authors will be responsible for paying the charges that exceed it.

All page charge grants are subject to approval by ESA.

Certification of Eligibility and Need

I certify that there are not research grants, institutional funds, or personal funding available for payment of the page charges and I request a page charge grant. I am currently a member of ESA. In addition, I understand that any pages exceeding the available grant are not covered and charges for these pages will be my responsibility.
